Mark Petovello Wins Institute of Navigation's Early Achievement Award

Dr. Mark Petovello, a Senior Research Engineer in the PLAN group at the University of Calgary and vice-chair of the ION Alberta Section, has been awarded the U.S. Institute of Navigation's (ION) Early Achievement Award. The award, presented today at the ION's Annual Awards Banquet in Cambridge, MA, recognizes an individual early in his or her career who has made an outstanding achievement in the art and science of navigation. The citation of Mark's award reads "For sustained technical and professional contributions to GNSS and navigation".

Dr. Petovello has made significant contributions in a wide range of navigation-related areas including software receiver development, GPS/INS integration, GPS attitude determination, reliability analysis, dead reckoning and GPS/GLONASS integration.
